

MILLIKIN UNIVERSITY COVID-19 VISITOR POLICY FOR PROSPECTIVE STUDENTS AND FAMILIES

We are excited to welcome visitors to campus, but it is important you are aware of and agree to follow our safety guidelines prior to your visit. Millikin is committed to keeping its employees and visitors safe from the spread of COVID-19. Thank you for your cooperation.

BEFORE YOU ARRIVE:

All visits must be scheduled. Visiting parties are limited to three people: the prospective student and two other individuals.

If you are traveling from a hot spot (as defined at: <https://millikin.edu/health/coronavirus-and-covid-19/hot-spots>), we ask that you self-quarantine as much as possible for the week in advance of your visit to limit your possible exposure to the virus. We strongly recommend that you test within a week prior to your visit to ensure that you are not positive for the virus.

If the prospective student is traveling to campus by air travel, all members of the visiting party must adhere to all travel guidelines (social distancing, wearing a mask, etc.)

Please take your temperature in the morning on the day of your visit before you come to campus. ***If your temperature is 100.4 degrees or higher or you have any of the following symptoms, please reschedule your visit:***

- Fever or chills
- Muscle or body aches
- Cough (worse than usual, if you have a daily cough)
- Shortness of breath or trouble breathing
- Headache (worse than usual, if you have headaches)
- Scratchy or painful sore throat
- New loss of taste or smell
- Congestion or runny nose (not associated with seasonal allergies)
- Nausea, vomiting, diarrhea or stomach cramps
- Dizziness and lightheadedness
- Fatigue that is unusual or more severe than normal

WHILE ON CAMPUS:

As part of our safety protocol, the Office of Admission will be checking temperatures of all visitors upon arrival. After you arrive and park, please come to Gorin Hall and remain outside the building. Next, call the Office of Admission at 217.424.6210 to notify them of your arrival. A staff member will come to the door and check the temperature (touchless) of each person in your party. If anyone in your party has a temperature of 100.4 degrees or higher, your visit will need to be rescheduled.

Please be aware of the following safety requirements/guidelines:

- Face masks must be worn at all times on campus, including outdoors on campus grounds.
- Please limit guests to two people per visiting student.
- All campus tours will be outdoor, and visitors are not permitted in academic buildings or residence halls.
- Please refrain from shaking hands or body contact with others.
- Please keep six feet of social distance from others (outside of your party) whenever possible.

AFTER YOUR VISIT:

Should any member of the visiting party experience any symptoms of COVID-19 or test positive for the virus within seven days of your visit, you are expected to contact the Office of Admission at 217.424.6210 to report this information to the University so we may appropriately contact trace those you had contact with during your visit. The University also agrees to notify you should any Millikin community member you came in contact with during your visit develop symptoms or test positive for the virus.

Prospective Student-Athlete Information:

In order to mitigate the spread of and exposure to COVID-19 within our student-athlete population, no prospective student-athlete will be permitted to participate in any practices, including drills, recreational activity, conditioning or workouts with current Millikin University student-athletes. The prospective student-athlete may observe and interact with the coaches and student-athletes on the sidelines, while wearing a mask and social distancing.

If a prospective student-athlete wishes to share a meal with the team or coaching staff, meals must be facilitated in designated campus spaces to allow for appropriate social distancing. Any portion of the visit where the visiting party engages in conversation for more than 15 minutes must be facilitated outside or in designated areas where social distancing can be maintained and air circulation is high.

Thank you again for your cooperation in keeping your party and Millikin University safe.
