James Millikin Scholars Program Petition to Waive HN492 while Student Teaching

The Millikin Honors Program requires that all JMS students be enrolled in HN492 (JMS Seminar) for each regular academic term that they are enrolled. This form waives that requirement for the term in which an education student is student teaching. **This form must be signed by the Coordinator of Clinical Practice only after the student has been placed for student teaching. The student teaching exemption does not affect the required (6) credit hours of HN191, Independent Study.**
